JOHN L. LEWIS IN
APPEAL TO ATTORNEY
GENERAL FOR ACTION

WARRANTS ISSUED FOR 221
PERSONS AFTER FATAL BAT-
TLE OF WEDNESDAY

WASHINGTON, July 13.—(P)—John L. Lewis appealed to Attorney General Murphy today for federal intervention in the Harlan county (Kentucky) mine dispute where union miners and the Kentucky national guard clashed yesterday in a bloody gun battle.

Lewis, head of the C. I. O. and president of the United Mine Workers, declared in a letter to Murphy that Governor A. J. Chandler was "violating his oath as constituting the power of his state" by using the national guard as he had.

While he did not make a direct appeal for White House action Lewis also said in his letter that "the president can act if he is so disposed."

He declared Mr. Roosevelt had "ample power" to protect the lives and liberties of citizens and that "Kentucky and Harlan counties, after all, are within the United States."

At the capitol the fatal shooting of the miner, Dock Caldwell, prompted Rep. Hoffman (R-Mich.) to issue a statement asserting that "the major share of the responsibility" for the affair devolved upon Lewis.

Caldwell lost his life, Hoffman charged, "because he attempted to follow the decree of John L. Lewis that no one in Harlan county should work until he had joined the United Mine Workers of America."

Chandler was trying to "exact vengeance" up the United Mine Workers union, Lewis asserted, because the union opposed Chandler and supported Senator Alben W. Barkley in the contest for Barkley's senate seat in 1938.

The 1938 senatorial battle, the labor leader said, was one of two reasons for Chandler's action in calling out the guard.

The other reason, Lewis said, was that Chandler wanted "to repay a political debt to a crimin-

GRAND JURY FAILS
HEAR TESTIMONY OF
RICHARD W. LECHE

NINE UNIVERSITY LABORERS
WHO HAVE MADE SERIOUS
WPA CHARGES CALLED

BATON ROUGE, La., July 13.—(P)—The East Baton Rouge grand jury investigating Louisiana State University, today staged a surprising and mysterious move when it declined to hear former governor Richard W. Leche's testimony, and instead called nine University laborers who have made serious charges of WPA irregularities at the school.

Leche obviously disgruntled by the unexplained move, protested vigorously to District Attorney Dewey Sanchez and Attorney General Davis Ellison and stomped out of the courthouse an hour after his arrival to motor back to his home at Covington, La.

"I was ready and the grand jury was not so I'll come back when I get another of those invitations," he said.

Neither Ellison nor Sanchez could explain the surprising rebuff to the former executive, who had driven 100 miles, part of it over rough roads, that jolted his arthritis-stricken hip, for today's appearance.

Leche, who limped heavily but was in good spirits when he entered the court house, went into immediate conference with district judge, Charles A. Holcombe, and a few minutes later left the court house.

His dismissal as a witness along with all the other highly placed state officials and university board supervisors came as a surprise to jury attendants.

All were asked to return tomorrow, the jury then announced, it would proceed with immediate examination of nine laborers and former laborers at the state university, some of whom have filed affidavits charging irregularity in WPA activities in the university.

They were Ernest Beeden, Lynch Bryant, B. H. Britts, Jack McKnight, R. C. Force, Sam Boudreau, Walter Cheney, and a man named Southwick.

No explanation was given for the jury's change of plans.

Calls on Long.

Before coming to the court house Leche visited the capital and called on Governor Earl K. Long, who succeeded him in the executive's chair when he resigned two and a half weeks ago.

Leche said his arthritis, which he said led him to resign, was still troubling him and that his hip was bothering him.

"I'm so full of germs," he said jokingly, "that it might even be dangerous for you to shake hands with me."

The former governor was unaccompanied when he reached the court house and posed amiably and at length for photographers.

"Wait a minute, boys," he said. "I'll pose for you," and he descended the court house steps, leaning on a cane.

Leche headed the list of 19 men well known in politics who were summoned yesterday, including all the university supervisors except Attorney General David M. Ellison.

PENSION OFFICIALS
OF TEXAS AWAITING
WASHINGTON WORD

FIELD INSPECTORS SEEKING
INTERVIEWS PROSPECTIVE
NEW BENEFICIARIES

AUSTIN, July 13.—(P)—Texas pension officials awaiting word from Washington approving or disapproving their plan of operation under the new somewhat liberalized law, marked time today while field men sweated under the load of 35,000 new applications.

Director W. A. Little of the old age assistance administration said he had received information from a social security board official the plan, on which hangs in a large measure the success or failure of the state pension system, was "reasonably sure of approval."

Field inspectors interviewed prospective pensioners under a set of rules promulgated under the new law which called for a new approach.

Instead of checking the ability of children or other relatives to help the needy, the inspectors attempted to determine the applicant's need on a basis of whether he came within the eligibility qualifications on other regulations.

New to inspectors and applicants were rules providing a pensioner could not own more than \$1,500 personal property if married or \$1,000 if single, was allowed to possess a homeestead and \$1,000 paid-up insurance and other specifications not considered under the old law.

Bridges' resolution was tabled on motion of Democratic Leader Barkley, but the jointly-won debate continued for an hour.

Minton (D-Ind.), who is supporting McNutt for the presidential nomination, told the Senate that the latter had not established Indiana's "two per cent club."

"They were established by state employees voluntarily," Minton shouted, "and they have kept the republicans out in the wilderness. You have got to have the whereabouts to run a political campaign, and this is an honorable, and sound, straightforward way of getting it."

The Senate approved McNutt's nomination on a voice vote which scattered "noes" were heard from the republican side.

NEUTRALITY BILL ON SHELF

Sen. Walter F. George (seated) (D-Ga.) and Sen. Guy M. Gillette (D-Iowa), are shown at a committee meeting where they voted with the majority to defer action until next session of congress on the neutrality bill. Both were on the list of those the president attempted to "purge" last year. The committee vote was a sharp blow to the administration.

DECISION BE MADE
NEXT FIFTEEN DAYS
ON REGIONAL C. C.

BUDGET OF CENTRAL TEXAS
BODY WOULD BE PLACED
AT \$20,000 YEAR

Action of counties and communities in the area to be embraced in the proposed Central Texas Chamber of Commerce unit within the next fifteen days will determine the fate of the proposal according to N. E. Edens, Corsicana banker and chairman of the regional committee seeking the formation of the new regional organization.

Thirty counties are included in the proposed territory, and 21 members of the general committee of 37 attended the meeting held at Waco Wednesday which heard reports by the finance and constitution and by-laws committees.

The report of the constitution and by-laws committee was presented by John Sheppard of Waco, and unanimously adopted. Purposes of the organization were defined as follows: "To promote and develop agricultural, manufacturing, livestock, mineral, industrial and commercial resources of Central Texas, with headquarters at some city within the geographical limits of the territory served; officers were to include a president, two vice-presidents, treasurer, general manager, with the region divided into five districts for administrative purposes."

Budget Trimmed.

A budget calling for \$30,000 as a starting basis was submitted by the committee headed by W. S. Siddons of Hillsboro, and quotas were set for the various counties on this basis. Several of the counties stated at Wednesday's meeting they were unable to subscribe the amounts assigned them, and after extended discussion the budget was trimmed to \$20,000 enabling a decrease of one-third in the quotas.

Under the proposed budget the organization would have a general office in Waco.

THREATENED FLOOD

RAPIDLY PASSING

RIVERS NOT AT FLOOD
STAGE AND BAYOUS ARE
RECEDING QUICKLY

HOUSTON, July 13.—(P)—The sun broke through the clouds today as rivers and bayous rapidly carried away surplus water dumped on South Texas parishes by four days of hard rains.

Showers were predicted along the coast by the U. S. weather bureau here but no heavy rains were in prospect.

The four major rivers in the area, the Brazos, Trinity, Neches and Sabine, were far below flood stage, and observers said there seemed little likelihood of floods even in the lower reaches of the streams.

Bayous in the Houston vicinity were falling rapidly. Residents who evacuated their homes yesterday were able to return today and found small damage caused by water that spread over streets and highways.

One unidentified lad was reported drowned here when he slipped into swollen Buffalo Bayou while trying to walk across the stream on wet water main.

Scores of suburban and rural homes were flooded by the overflowing Sims and Brays bayous. Many small residents had to leave their homes last night. Engineers said property damage probably would be small.

Highways around Almeda, Webster, Angleton, Alvin, Freeport, Goose Creek and Richmond were reported under water but traffic moved slowly forward.

Rains yesterday brought relief to parched crops at Austin, San Marcos, Laredo, Lockhart, Breckenridge, Hempstead, LaGrange, Columbus, an area extending from San Angelo to the border at Del Rio.

The coroner said death apparently was caused by a heart attack.

Navarro County
Aliens Are Being
Ad Valorem Tax
Refund Be High

Navarro county will receive approximately \$45,000 per year when the recently enacted legislation becomes effective in 1940-1941 whereby one-half of the state ad valorem taxes are returned. This statement was made by E. Cunningham, county auditor, who said he had received information from the state auditor that he was free to sail the Honduran flag craft at any time he desired. Officials said that a \$13,000 fine assessed against the yacht had not been paid.

Further advices from Washington were awaited. The yacht was expected to sail for Honduras this afternoon.

GALVESTON, July 13.—(P)—Exact status of federal government's controversy with Erle P. Halliburton over alleged violation of navigation laws by his yacht Vida was still not clear today, although officials said he was free to sail the Honduran flag craft at any time he desired. Officials said that a \$13,000 fine assessed against the yacht had not been paid.

The State ad valorem tax last year amounted to \$93,278.93. Tax commissioners to the county for the tax assessor and collector, sent to the salary found, amounting to \$2,081.40, leaving a net ad valorem payment of \$90,697.52 and that amount would be total.

The state ad valorem tax for 1940-1941 has approximated the above figures during the past several years, as there has been little difference in the state rate or the valuations of Navarro county.

In what fund the commissioners court, when and if the revenue is received, will place the amount has not been indicated, but it is expected that the general fund is the most likely one.

The county auditor is of the opinion that the current tax paid from October, 1940 to Jan. 31, 1941, will be the first affected by the new provisions.

Until last year, permits were issued perfunctorily at the request of manufacturers, but now they are good for only three or six months. G-men of the federal bureau of investigation check on the aliens.

THOUSANDS OF WPA
WORKERS FIRED DUE
FIVE DAYS ABSENCE

LABOR FEDERATION HIGH
COMMAND SPEEDS DRIVE
CHANGE NEW RULING

(By The Associated Press.) While the AFL high command speeded its drive today to restore the prevailing wage rate to the new relief act, thousands of WPA strikers received dismissal notices for ignoring their jobs for five days.

William Green, AFL president, called a strategy meeting in Washington to carry out demands on congress, and the president sanctioned yesterday by federal

unions.

President Roosevelt scheduled a conference this morning with Dan Tracy, of the AFL electrical workers union. White House officials said the WPA situation probably would be discussed.

The WPA gave out no totals on the numbers of workers dis-

missed.

The strikes, protesting the requirement that all WPA employees work 150 hours a month were now by WPA Commissioner P. O. Harrington as he conferred in Chicago with state administrators.

Harrington said wages in the north and west would be reduced Sept. 1, while those in the south would be increased. The law provides differences in WPA rates in various sections shall be no greater than differences in the cost of living, but that the present national average—\$52.20 a month—will be reduced.

**REV. R. O. SORY
MAIN SPEAKER AT
MALAKOFF BANQUET**

Rev. R. O. Sory, district superintendent of the Corsicana district of Methodism, was the principal speaker at the Men's Fellowship banquet at the Methodist church in Malakoff Tuesday night. Rev. Mr. Sory used as his subject, "Co-Operation." He pictured what additional power for good the church would be if the man-power of every church would co-operate in the activities of the church like they do in many other enterprises.

Rev. Mr. Cunningham, pastor of the Malakoff church, led in several songs, and Boyce Martin, layman of the First Methodist church, who accompanied Rev. Mr. Sory to Malakoff, was called out for a brief talk on the Unting conference held in Kansas City recently, to which he was a delegate.

Officers for the new year were elected and other matters of business transacted. All present reported a most enjoyable afternoon. A fine chicken dinner was served by the women of the church.

**Recent Bride Was
Honoree of Kerens**

Party and Shower

KERENS, July 12.—(Spl.)—Hornoring Mrs. Earl Seale, formerly Miss Undine Fullwood of Dallas, a miscellaneous shower was given at the home of Mrs. Wade J. Price Thursday, July 6th, from 5 to 7 p.m. with Mrs. A. S. Pritchard, Mrs. C. W. White, and Mrs. W. T. Stockton, co-hostesses. A color scheme of yellow and white was chosen and beautifully carried out both in house and table decoration.

Guests were received by Mrs. Price, who presented the honoree, her mother, Mrs. W. A. Fullwood of Dallas, her sister, Miss Edna Fullwood, Dallas, and Mrs. F. L. Seale.

Included in the house party and assisting in the dining room and the rooms where gifts were displayed were: Mrs. H. N. Harris Buckholtz, mother of Mrs. Price; Mrs. E. H. Bray, Mrs. H. A. Quaile, Mrs. J. E. Simons, Mrs. Howell Miller, Mrs. Andrew McCullough, Mrs. James Taylor, Mrs. R. Walker, and Mrs. E. M. Westbrook of Bryan; Miss Novella Orrick of Malakoff, who was in charge of registration.

After viewing the many useful and beautiful gifts, guests passed into the dining room where they were served fruit punch, white cake squares and ripe cherries. The table covered with a lace cloth was centered with a large crystal bowl of shasta daisies and yellow marigolds, with smaller arrangements of the same flowers effectively used on the buffet.

Colorful summer zinnias added their brightness to the lovely scene being placed at vantage points throughout the reception suite. About 150 guests called during the afternoon.

Among those from out of town were: Mrs. Russell Purifoy, Mrs. V. A. Boyd, Mrs. Fullwood Boyd, Mrs. G. W. Speed, of Corsicana; Mrs. Mollie Johnson, Houston; Mrs. Ann Lamb, Dallas; Miss Ernestine Orrick, Malakoff.

A musical program was given by Mrs. A. S. Pritchard and Miss Katherine Ivey.

Approaching Wedding.

KERENS, July 12.—(Spl.)—Announcement has been made this week of the approaching marriage of Miss Dorothy Summy, daughter of Mr. and Mrs. C. F. Summy, 129 1/2 W. Twelfth Street, Dallas, and Truett S. Trammell, Dallas, son of Mr. and Mrs. C. W. Trammell, Kerens. The wedding will take place at 8 p.m., July 21st, at the Tyler Street Methodist church, Dallas, with Dr. Virgil Fisher officiating.

Miss Evelyn Carroll will be maid of honor, and L. A. Pugh, Jr., of Kerens, will serve as best man.

Nuptial music will be given by Mrs. W. H. Satterfield, and Mrs. Louise Kramer Perry.

Kerens' friends of Truett, who was born and reared here, are united in wishing for him "bon voyage" on this, his newest venture.

Mrs. Rex Bounds, who with her husband has been in Atlanta, Ga. for the past several months, came home the Fourth to undergo a major operation, which was successfully performed Monday morning by Dr. J. H. Mabry of San Antonio, who came up Saturday.

Mrs. Bounds, who was the former Miss Nalda Hamilton, daughter of Mr. and Mrs. Guy Hamilton, is reported doing as well as could be expected at this early date.

Her host of friends are hoping for her a safe and speedy recovery.

**Richland Young
People Met Last
Sunday Evening**

The Richland Young People met again on Sunday, July 9. There were 12 present. There would have been more present if it had not rained late that evening. Our lesson was the first chapter of I Timothy, and everyone was to make out five questions. After the lesson was finished, our president, Mrs. Bay Lansford, took charge and we had a spelling match. The words were from Jean York and Miss Nutt. When a word was spelled correctly you took your seat. Jean's side won.

Some of the members arrived early and sang songs until the others arrived. The songs were led by Ruth Nutt, and the class was dismissed by Eldred Mayo.

We had three visitors from Nebo, Ruthie V. Dees, Thomas Baker and Therman Garner.

The building was opened and closed by Clovis Allen, a member of our class—Jean York, Secretary.

**OLD MEN WHO WERE LIBERALS;
YOUNG MEN "STAND PATTERS" ***

In Rehoboam's Day Reactionaries Had Their Way and Split the Nation — Far-Reaching Consequences of a Young King's Folly — Youth's Preparation Time.

By WILLIAM T. ELLIS

At the New York World's Fair I saw many wonders, but I find that my mind reverts oftenest to a little square of parchment, written in a language I could not read, that was displayed in the spacious British Pavilion. As visitors approached it, up the red-rope runway, the men instinctively took off their hats. For here was the original Magna Charta, signed, underdures, by King John at Runnymede, on June 15, 1215. This Great Charter is commonly regarded as the source of all subsequent documents safeguarding the rights of the people against royal encroachment and oppression. From it stems the American Declaration of Independence.

A similar scene to that of Runnymede was enacted long centuries earlier, when the people of Israel, delivered from the reign of Solomon's son Rehoboam, ruler of his own kingdom, shamed young Rehoboam, shamed by his own companions, took the opposite course from King John, and with a bluster that he thought was strength, declared that he would be more severe upon them than his father had been.

"To Your Tents, O Israel!" Led by Rehoboam, the people of the ten northern tribes raised the cry, "To your tents, O Israel!" The revolt was on, with whirlwind force. We can imagine the scene. The Jews have ever been hysterical "demonstrators." The excited multitude milled about, some shouting one thing, and some another, but all opposed to Rehoboam. A passion for liberation from old burdens moved them, as well as a desire of a newer, better kingdom. I saw similar outbursts in Russia and in Turkey and in Egypt.

Rehoboam's two classes of advisers may be likened to the "liberals" and "radicals" who are everywhere contending today. In his case, however, it was the old men who were the socially-minded liberals; and the young men who were the conservatives. The latter were reactionary and selfish; the former were forward-looking and justice-loving. And, of course, the "stand-patters," arrogant in their consciousness of power, lost the day and the kingdom, as has usually been the case in history.

SEVEN SENTENCE SERMONS

It is not the presence of an ideal that saves, but the fearless, strong-hearted devotion to an ideal.—W. Jethro.

What I must do is all that concerns me, not what people think.—Emerson.

When wealth is lost, nothing is lost;

When health is lost, something is lost;

When character is lost, all is lost.—German Proverb.

God will not look you over for medals, degrees and diplomas, but for scars.—Anonymous.

If ye abide in me, and my words abide in you, ask whatsoever ye will, and it shall be done unto you.—John 15:7.

Say not the days are evil—who's to blame?

And fold the hands and acquiesce

Of shame;

Stand up, speak out, and bravely,

In God's name!—Maitland D. Babcock.

No man ever sank under the burden of today; it is when tomorrow's burden is added to today's that the weight is more than a man can bear.

—George Macdonald.

Also I learned that widespread and long-suffered wrongs on the part of the people are what make revolutions possible. When, as with us, the great bulk of the population endure no oppressions, and enjoy security, liberty, and prosperity, all old talk of revolution may be dismissed. The cement of a nation—indeed, its very foundation—stones—is the prevalence of justice, freedom, righteousness and brotherliness. We may read that interpretation into the old Scripture, "Happy is the nation whose god is the Lord." For the fruits of godliness are all the benefits that civilization at its highest seeks to attain.

There is nothing desirable in any of the political panaceas which have been so much discussed of late—the "isms" which haunt the dreams of the timid and unformed—that may not be found, in better form, in the simple and sincere practice of Christianity. Rehoboam was a renegade from religion before he was anything you took your seat. Jean's side won.

Some of the members arrived early and sang songs until the others arrived. The songs were led by Ruth Nutt, and the class was dismissed by Eldred Mayo.

We had three visitors from Nebo, Ruthie V. Dees, Thomas Baker and Therman Garner.

SIMPLE PRECAUTION AGAINST HEAT GIVEN HEALTH DEPARTMENT

AUSTIN, July 13.—(Spl.)—The beating Texas sun these July days is beginning to take its toll in heat prostrations, from reports reaching the Texas state Department of Health. A simple precaution to help prevent heat cramps and prostration is to add a pinch of ordinary table salt to each drink of water you take.

Laborers, mechanics, farmers and white collar workers whose work causes them to sweat profusely, are in danger of having the body salt content become deficient when resulting heat cramps or heat "fag." Salt is a prominent constituent of sweat; the body loses large quantities of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be used. Milk is a source of salt and will help make up for the deficiency caused by sweating. Alcohol and drink should be avoided.

Heat cramps are characterized by pains (cramps) in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual until there is a deficiency; then various muscles begin to cramp.

FOREST RANGERS FEAR NEW FOREST FIRES IN DRY AREA

DENVER, July 13.—(P)—Rocky Mountain forest rangers, wearied by a week of fighting fires in tinder-dry timberlands, watched closely for possible new outbreaks today as cloudy weather brought the added danger of lightning to the sun-dried mountain country.

Lightning cause of many forest fires was blamed for the death of Ervin Voegeli, 21, one of the thousands of civilian conservation corps workers called out on fire fighting duty during the past week.

Voegeli, patrolling one of the fire lines with which a 2,000-acre blaze in the Black hills of South Dakota was brought under control, was struck by a bolt of lightning yesterday.

W. H. Stigell of Clarkston, Wash., was the only other firefighter reported killed in line of duty. An anag fell on him Tuesday night while he helped check a fire in the Clearwater National Forest in northern Idaho. It was one of 26 fires set by lightning that night.

Half of the 1,100 men who brought a 1,500-acre fire in the Roosevelt National Forest of Northern Colorado under control were released yesterday.

Member of Drilling Crew First Oil Well Visited Corsicana

S. A. Nolen of Dallas, member of the drilling crew that drilled the first oil well in Corsicana, is visiting friends here. Mr. Nolen stated that he had just come to Texas from Alabama and he had worked on a water well in Hubbard City before starting on the well here.

Rittersbacher and Johnston, he said, were the drilling contractors, and they were drilling a water well when oil was struck.

She Had Proof

MIAMI, Fla., July 13.—(P)—When a negro woman obtained a \$5.75 check made payable to her late husband for an electric rate refund a Florida Power & Light company clerk demanded proof of the payee's death. "I shot him and I've got papers here to prove it," she was the astounding rejoinder. She produced a coroner's certificate which stated the man was "shot by wife." The finding was justifiable homicide. The clerk handed over the check.

RIGHTS IN CHINA

Japanese statesmen have been engaged lately in trying to wean Uncle Sam away from the other big democratic powers. Our flag and citizens in China have not been free, by any means, from Japanese indignities, but we have been treated better than Britain and France. This fact has been especially noticeable at Tientsin, but throughout the whole Asiatic war area more respect has been shown lately for American life, property and dignity.

This improvement in Japanese manners is welcome, but not conclusive. Our government and people are still denied, by the Japanese aggressors, most of the rights and privileges in China based on old custom and definite treaties with China and Japan. It is unwise and unsafe for Americans to forget these facts, because we shall have no permanent rights in the Orient except those upon which we steadfastly insist.

It is also clear to thoughtful Americans that we cannot allow any foreign power, especially a member of the aggressive "axis," to drive a wedge between us and the friendly democracies with which we are informally associated. Our fortunes hang together. We are not bound to fight for them, but we are bound to cooperate with them in peaceful ways, to help preserve law and order in a world which seems to be reverting to the law of the jungle.

ODD NATURE NOTES

There are nature stories which it is easy to recognize as fakes, and there are others which arouse skepticism but are labeled authentic.

In the latter group are some tales from Sarasota, Fla. The teller lives there and has become well acquainted with her neighbors' cats and dogs. Two white Persian cats, belonging to a family living close to the bay, swim out regularly to the oyster beds and stay there until they have gorged themselves with the minnows they catch.

Cats are not supposed to like getting even their feet wet, and certainly few of them have ever been known to swim from choice.

In her own back yard, the narrator says, black-birds pick up hard crusts she scattered for them, take them to her fish pool and proceed to dunk them until they are soft. Then the birds swallow them with apparent relish. Such a tale is not hard to believe. But the odd thing about this stunt is that only the black-birds, of the many feathered visitors to her yard, do it.

That isn't all. When she first had her fish pool installed, neighbors' pets used to drink from it. She didn't like that, so she put out pails of water near by, and all the visiting cats and dogs now drink from the pails, showing both good manners and appreciation.

This woman has been recovering from a broken hip and a long illness, so she spends much time in quiet observation. Perhaps more of us would have such fascinating nature items to record if we gave our pets more than casual attention.

Even royalty is subject to style. "That's the way it's supposed to be worn," protested the royal princess of Norway, when a photographer asked her to tip her hat so he could show her face.

CRANCKMIRE ON SIMPLE LIVING

"A few old fashioned simples," said Old Cranckmire, "is our need. Such as: many here must follow, and a few be picked to lead. Such as: God has not intended man or beast on earth to shirk.

And the way to earn a living is to buckle down to work.

"We have cluttered up our schooling with a lot of fancy themes."

We have left the land of practice for the land of petty dreams.

And it's time we started teaching, so that every boy can learn.

The only decent living is the living he must earn.

"Let's be done with fancy teaching and begin the facts to face:

Life means work for food and shelter and it should be done with grace.

There is time for rest and pleasure, but from start to final turn.

Every joy that's worth the having is a joy a man must earn.

"If a boy won't work for knowledge, as a fool he'll live and die, a beautiful practice youth must buy.

Needs and wants are spur to goad us, and our upmost concern

is to seek in all good reason what we're strong enough to earn."

BARTERING.

There is an important difference between the kind of barter now initiated between the United States and Great Britain, and the barter practiced by Nazi Germany. The Nazis, needing a great many vital materials which they do not produce themselves, and having no money, can only get their imports by exchanging for them domestic goods produced by German industries. Our country has enough gold, and many times enough credit based on that gold, to buy all the materials and commodities in the world that it could possibly use. Britain is very similar.

Such a swap, therefore, as the one by which 600,000 bales of surplus American cotton are exchanged for 175,000,000 pounds of British rubber, is a matter of convenience rather than stern necessity. It represents the beginning of a policy announced several months ago, whereby the United States expects to acquire and store up, against a possible time of war and commercial isolation, large quantities of all the foreign materials which might be needed by American industry. There are such things as Canadian nickel, East Indian tin, and many others.

It is better to pay for them in goods, if we can, rather than money, in order to relieve our commodity surplus and thus help our farmers and manufacturers.

PLAYGROUND PENTATHLON.

A playground pentathlon is not an athletic contest, as it is in the modern Olympic games. Running, broad jumping, javelin and discus throwing have no part in it. It is a contest in which children compete in five activities chosen from fifteen types of suggested projects. The contest comes after a period of training and practice.

All this is the playground plan of a board of education, with prizes offered by a daily newspaper of the same city. It's a great scheme to keep the children happy, off the streets, safe, and constructively occupied during the summer vacation.

A few of the skills acquired in the pentathlon give a hint of the variety of tastes and talents which may be exercised. There are handicrafts (sewing, quilting, knitting, a wood work, wood and other carving, jewelry making, clay modeling), games (tennis, checkers, marbles, hop scotch, jack straws, baseball, etc.) singing clubs, folk dancing, harmonica playing, nature study, kite making and flying, and a whole lot more.

Here are no Fascist or Nazi youth corps, in which membership is compulsory, but a city's recognition of its young citizens' needs.

The problem at Washington is to find pleasant ways to collect taxes.

NAVARRO COUNTY GUARD OFFICERS AT DALLAS MEETING

Seven National Guard officers from Navarro county attended the 122nd Field artillery conference at the Adolphus hotel in Dallas Sunday to complete plans, receive instructions, and discuss the coming summer encampment to be held at Camp Hulen, Palacios, Texas, beginning August 5. Major John Garner and Captain Louis Molloy, commanding officer and executive officer of the Second Battalion; Captain Festus Pierce and First Lieutenant Donald Newcomb of Regimental Headquarters Battery in Corsicana; First Lieutenant Paul Dresser, Battery "D" in Corsicana, and Captain Hal Johnson and Second Lieutenant James E. Taylor, Battery "E" Keren, were the officers attending.

All phases of the two weeks period were discussed, including better messing of the men, training while at camp, safety precautions to take enroute to camp, procuring supplies, and other details likely to be overlooked in getting ready to go to camp.

The Second Battalion, of which the Corsicana and Keren firing batteries are a part, will conduct the firing for the class "A" or advanced officers. Major John Garner will command the firing point and First Lieutenant Johnson, Keren, will be the instructor. During the past few years this Battalion has had the beginners' class of officers and have usually fired the 75 MM field pieces on the regular 75 MM field pieces. This year, however, these batteries will use only the regular 75 MM service ammunition and the training will be much more interesting for the men in the firing batteries.

Arthur H. Newton, (above) field Scout executive is moving to Corsicana. He arrived here July 1 and is meeting Scouts and friends of Scouting. His coming Corsicana is in the expansion program of Circle Ten Council, Boy Scouts of America. His family, consisting of Mrs. Newton and two daughters, Katherine and Ann, and his wife, Nancy Lee, 4, will arrive within a few days.

Newton became a Scout soon after his twelfth birthday and has had many important posts in the organization in St. Louis. He entered the professional service in June of 1938.

Japanese on the Manchoukuo-outer Mongolia front expressed belief the main battle with Soviet-outer Mongolian forces was over. They said most of the Soviet forces had been driven back west of the Khalka river.

New British Loan.
LONDON, July 13.—(P)—Sir John Simon, chief of the exchequer, told parliament tonight that a new public loan of about \$50,000,000 pounds (about \$1,638,000,000) probably would be necessary to meet Britain's mounting armament costs this year.

Sir John estimated armament for the current year would cost \$70,000,000 pounds (about \$3,410,000,000) as a result of new increases in the 1939-40 budget for the air force, supply ministry and the army.

He spoke at final debate on the budget, which was passed on third reading and sent to the house of lords.

A labor motion for rejection of the finance bill was defeated by a vote of 206 to 141.

Restrictions Relaxed.
TIENSHAN, July 13.—(P)—Japanese blockading the British and French concessions relaxed their restrictions today on the British area's milk supply, permitting entrance to nearly normal amount.

Instead of searching the bottles "or bombs" as in the past, the Japanese merely counted them. The blockade was started July 14.

The British escort vessel Sandwich was scheduled to arrive today as part of a British naval move in connection with the British-Japanese friction in China.

The escort vessel Lowestoft, which had hurried to Tsinhtao after mobs stoned the British consulate and the British Hongkong and Shanghai Bank on Monday, left for an undisclosed destination to be replaced at Tsinhtao by the 1,375-ton destroyer Diamond.

The British charged that the attacks were Japanese-inspired. The Tsinhtao consulate protested to Japanese and notified them of information similar demonstrations were being planned for Friday and Saturday.

Japanese Agree on Policy.
TOKYO, July 13.—(P)—A cabinet council attended by all ministers today approved a draft of Japan's policies for forthcoming conferences with British diplomats to settle the Tientsin controversy.

The conferences were expected to start Saturday. Reliable sources said Japan would ask Britain to abstain from assisting Generalissimo Chiang Kai-Shek and guarantee political and economic co-operation in Japanese efforts to reconstruct North China.

(Britain has wanted the negotiations limited to the situation at Tientsin, where Japanese have blockaded British and French concessions since June 14.)

Heavy Bonds Set
For 220 Persons

HARLAN, Ky., July 13.—(P)—Bonds totaling \$235,000 were set today for 220 union miners—including a \$16,000 bond for the district secretary of the United Mine Workers (C.I.O.)—arrested after a "pitched battle" between pickets and national guardsmen.

George Titler, the union secretary, was charged with sedition, forcible rebellion and armed attack on national guardsmen, and banding and confederating to intimidate—the latter charge the same as that faced by the others in custody.

A miner was killed and six others, men, including two troopers, were either shot or beaten in the clash yesterday at a mine operating without a union contract.

Trials were set for Monday.

A warrant on the banding and confederating charge also was issued against William Turnblazer of Celilo, Tenn., district U. M. W. president.

Turnblazer was not in Harlan.

He declined Tuesday he had been called to Washington to testify before a Senate committee.

The warrants charged "banding and confederating to intimidate" a charge which County Attorney Bert Howard said carried a one to five year penalty on conviction.

Harlan quieted down, meanwhile with the arrival of 500 national guard reinforcements to augment 300 troops on duty in the county for nearly two months.

Troopers, bullets yesterday wounded a miner and his mother in a short disturbance following the picket-guardsmen clash at a nearby mine.

Capt. John Hanberry of Hopkinsville, guard officer, and two miners wounded in the encounter were reported in a serious condition. The dead man was Dock Caldwell, 31, of Wilson-Barger.

Major Staples termed the situation here "extremely critical" as upward of 500 troop reinforcements including machine gun and tank units, moved in to augment the 300 guardsmen who have been on duty here for nearly two months.

Shots and Convalescent.
Mrs. J. W. Glasscock underwent an operation Thursday morning at the P. and S. Hospital and was reported to be resting nicely this afternoon.

Mrs. D. F. Steele of Streetman underwent an operation this morning at the P. and S. Hospital and her condition was reported to be satisfactory this afternoon.

Miss Hattie Hardin of Mexia is a patient in the P. and S. Hospital.

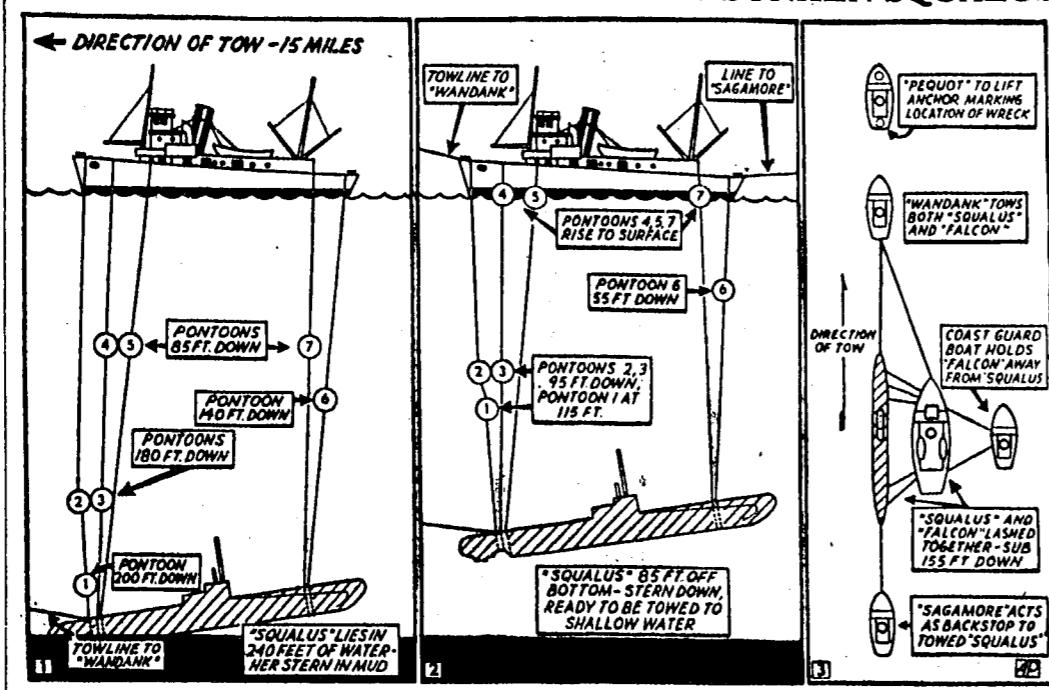

A. W. Parish is a patient in the P. and S. Hospital.

Mrs. E. L. Brewer, who underwent an operation yesterday at the P. and S. Hospital, was reported to be resting very well Thursday.

"Apparently the government is keeping with President Roosevelt's good neighbor policy in Latin America, has suspended collection of any fines which may have been imposed on the Honduras-flag ship. If any navigation or customs laws were violated by the yacht's operators, the violations were committed innocently, and through error rather than intention."

Texan Nominated To Head BPW Clubs 1940

KANSAS CITY, July 18.—(P)—Mrs. Ross E. Cunningham, Des Moines investment consultant, and Dr. Minnie L. Maffett of Dallas, Texas, were nominated today for the presidency of the National Federation of Business and Professional Women's Clubs.

McNutt Takes New Job.

WASHINGTON, July 13.—(P)—Strapping, silver-haired Paul V. McNutt took over the new office of federal security administrator today amid increasing speculation over the hearing it may have.

Senator Board (D-Idaho) said the group and would sift the reports

the administration plans a determined attempt to use the 12 to 11 vote by which the foreign relations committee postponed consideration of neutrality legislation until the next session of congress.

There were indications that the administration's next move might be a proposal that the committee approve a neutrality bill with the understanding it would not be acted on now but would remain on the calendar for early consideration next session.

The President's \$2,600,000 lending program and amendments to the social security law appeared the only major measures before Congress.

With hearings being held before both senate and house banking committees on the lending program, the senate was winding up debate on the social security amendments. The house already has approved them.

Senate Rejects \$30 Pension.

WASHINGTON, July 18.—(P)—The senate rejected today on voice vote a proposal to give the nearly aged a federal pension of \$30 a month.

The federal outlays would have

been in addition to any state payments.

The proposal, offered by Senator Bibb (D-Ga.) during consideration of amendments to the social security act, was opposed by Chairman Harrison (D-Mich.) of the senate finance committee.

Silver Price Maintained.

WASHINGTON, July 13.—(P)—The treasury retained its silver price at 35 cents an ounce today for the fourth consecutive day despite an increase in the price of the metal on the London silver market.

The London price today was 35.42 cents an ounce, compared with yesterday's quotation of 34.89 cents.

Official Interpretation.

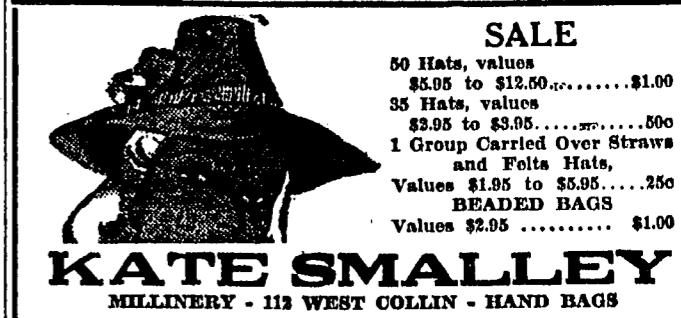

WASHINGTON, July 13.—(P)—Strapping, silver-haired Paul V. McNutt took over the new office of federal security administrator today amid increasing speculation over the hearing it may have.

Texas, Oklahoma, New Mexico, Colorado and Michigan authorized the compact to prevent waste of oil and gas.

SPORT NOTES

By PAUL MOORE San Sports Editor

The softball season is in full swing at the present time and the Corsicana and this vicinity is in the midst of perhaps the greatest activity in this particular sport. The local circuit's campaign is now on the home stretch.

The Richland invitation is ending while the Streetman invitation meet will get under way next week. As soon as the local circuit's season is closed the district AAU tournament will be sponsored under the direction of J. D. Richardson, director, and approximately 80 clubs from nine counties in Central and East-Central Texas will compete for the honor of going to the state tournament.

The boast of C. M. Newton, Jr., Dawson softball manager, that the West Navarro county club was strong enough to play any team at any time seems to have been well-taken, for the West Navarro team has made a great record in the Richland competition. It has won the title and a number of fine clubs were downed by Newton's aggregation.

The Dawsonites are slated to play two games here tonight, meeting the Veterans of Foreign Wars and the Girard Oilers in exhibition contests at Magnolia field.

Claude R. Gilstrap has been named assistant coach at Crock-

ett High...He formerly was assistant coach at Leverett's Chapel in the East Texas oil field...The new Crockett assistant is a brother of Bully Gilstrap of the University of Texas coaching staff.

Washington of Shreveport hit a home run Wednesday.

Wonder if Whitley Wyatt, Brooklyn hurler, likes night baseball? He had won eight straight games without loss this season until Wednesday night when Pittsburgh defeated him, 8-0.

Looks like Davey O'Brien and KI Aldrich, quarterback and center, respectively, of the Texas Christian University Horned Frogs and both All-American selections, may make the Dream team to play in Soldier Field, Chicago, later in the summer, according to the polling as announced by the Chicago Tribune, one of the leading publications sponsoring this giant spectacle...These two noted Texans are getting flocks of votes from all sections of the country, and their popularity is not confined to any particular section. Strong support is being seen in the selections of these two players in the Southwest, South, Midwest and Pacific Coast areas.

Dawson had eliminated a number of strong clubs in her march to the finals.

OPPOSITION SIGNS APPEAR BOTH HOUSES FOR LENDING BILL

ABANDONMENT OF FOREIGN LOANS PROGRAM FAILS TO APPEASE OPPONENTS

WASHINGTON, July 11.—(P)—While administration lieutenants were pressing for prompt enactment of President Roosevelt's \$2,800,000,000 lending program, signs of stormy opposition appeared today in both house and senate.

Legislation to carry out the program was submitted yesterday, and chairman of the banking committee in both chambers ordered both hearings at the week.

The program, substantially that outlined by Mr. Roosevelt some weeks ago, would provide federal loans for such projects as toll roads, public works and rural electrification, designed to be self-liquidating. The RFC would do the financing, and congress would make appropriations to meet deficits whenever it appeared assets were not worth their book value.

Chairman Wagner (D-N.Y.) of the Senate banking committee and Major Leader Barkley (D-Ky.) pointed out that the administration made one major concession in abandoning a proposed \$500,000,000 in foreign loans. It substituted a \$100,000,000 in the Export-Import Bank authorization for financing exports.

Other senators contended only a few of the proposed projects actually would be self-liquidating.

"There will have to be a substantial commitment of this program before I can support it," remarked Senator George (D-Ga.)

Senator Connally (D-Texas) said of a proposal to lend money to build toll roads:

"I don't know of a road in the United States, except possibly one between Washington and New York, that could be self-liquidating on a toll basis. The people just won't use them when free roads are available."

From Senator Glass (D-Va.), too of administration fiscal policies, came the terse comment: "You can get anything through congress that will spend money."

On the house side, Republican Leader Martin (R-Mass.) called the program "that glorified presidential pork barrel."

Representative Williams (D-Mo.) said that "if the administration insists on passage at this session, we undoubtedly will be here until September 1."

FORMER CORSICANA WOMAN DIED ATHENS; BURIAL ON TUESDAY

ATHENS, July 11.—Funeral services for Mrs. E. A. Sanders, 62, local florist, and former resident of Corsicana and Hillsboro, who died Monday, were held here Tuesday afternoon.

Surviving are three sons, E. A. Sanders, Jr., Athens; T. J. Sanders, Houston, and W. H. Sanders, Athens; and two daughters, Mrs. N. B. Blythe, Kittery, Maine, and Mrs. J. P. Hodge, Chatfield; two grandchildren, J. P. Hodge, Jr., Chatfield, and Ed Sanders Blythe; a brother, Joe Hocutt, Norfolk, Va.

Mrs. Sanders and her late husband came to Corsicana in 1907 and later moved to Hillsboro. Mr. Sanders died May 10, this year.

Recent Bride Was Honoree of Shower At Navarro Friday

Baptist Women In Missionary Session In Kerens Monday

NAVARRO, July 13.—(Spl.)—Mrs. Elmer McGehee of Conroe was the honoree of a miscellaneous shower Friday, July 7, in the J. S. Doolen home near Navarro. Mrs. Mrs. Doolen and Mrs. E. D. Smith are co-hostesses. Mrs. McGehee, who will be remembered by many of her friends as Lou Ella Duncan of Grape Creek, was married to Elmer McGehee of Richland on July 21 and since then they have made their home in Conroe.

Approximately sixty-five of the bride's relatives and friends registered in the bride's book made by Geraldine Marsh and presided over by Hazel Smith.

The guests enjoyed readings by Onarie Cowan; Jo Nelle Fouty and Glennie Sue Bressie after which the many beautiful and useful gifts were presented the bride. Little Annie Joyce Bottoms entered the room as a fairy with a small basket of gifts in search of Mrs. McGehee. Then Lorraine and Thelma Jo Doolen, two of the bride's cousins, brought in a huge basket piled high with gifts and placed it in front of the bride seated in her honor chair.

After the gifts had been opened and passed around for all to admire, Mrs. McGehee voiced her appreciation for the lovely gifts and invited everyone to visit her sometime.

Refreshments of ice cream and cake were served and then the guests departed expressing an enjoyable time and with the best of wishes for the continued happiness of the bride and groom. Contributed.

OUTSPOKEN WARNING GIVEN TO JAPAN BY SOVIET NEWSPAPERS

MOSCOW, July 11.—(P)—Outspoken warnings to Japan that they were playing with fire in the outer Mongolian and de-creased warfares were published by Soviet newspapers today as the Mongolian people's republic observed the 15th anniversary of its founding with Soviet aid.

Red Star, Soviet army paper, said the Russian army was helping the Mongolian army in the fighting which has been intermittent along the Manchoukuo-outer-Mongolian frontier since May 11, and declared:

"The insolent raids of the Japanese provocateurs will end in a complete fiasco."

The Red Banner of Vladivostok, site of Russia's far eastern military base, listed five reasons why Japan must "abandon" now:

1. To safeguard the left wing and rear of Japanese armed forces in the far east while preparing for war against the Soviet Union;

2. Isolate outer Mongolia and the Soviet Union from China;

3. Prevent union of the Chinese army with the outer-Mongolian and Red armies;

4. Get control of outer Mongolia's raw material and livestock for use in a big war; and

5. Create a central base of operations on the Asiatic continent.

Amid the present large-scale fighting with Japanese-Manchoukuo forces, the Mongolian people's republic is celebrating both the 15th anniversary of its founding and the 18th anniversary of the Soviet-aided revolution which led to establishment of the new state, independent of China.

Under Soviet protection, the republic of 900,000, chiefly herdsmen, has nationalized land, established state control of banking and credit, and set up a state monopoly on foreign trade, Red Star said.

ROOSEVELT CHARGES UNITED PRESS WITH FALSIFICATION OF FACTS IN NEUTRALITY REPORT

WASHINGTON, July 13.—(P)—President Roosevelt said in a formal statement today the United Press had "been guilty of falsification of the actual facts" in reporting his and Secretary Hull had disagreed on language of a neutrality message to congress.

The United Press story said the disagreement was reported in administration quarters. Mr. Roosevelt was described in the story as wanting to use forceful language in the message while Secretary Hull was said to have opposed language that might anger the Rome-Berlin axis and further antagonize an already rebellious senate.

Mr. Roosevelt's statement follows:

"The reading public is entitled to a statement from the President to a statement of warning which has been made necessary by a news story issued through the United Press today and already printed in one or more papers and on the United Press ticker service. "The head line of the local Washington Times Herald states that the President and the secretary of state have 'split' on some form of note on neutrality.

"The story states that they were reported to have disagreed on the language of a neutrality message. The head line is, of course, wholly false. So is the story. Subterfuge Obovous.

"The subterfuge of saying in the lead of the story that they were 'reported' to have disagreed is obvious because it is a practice too often engaged in to invent such 'reports' out of a clear blue sky, falling wholly to check-up with any responsible source in Washington.

"After you have the indispensable 'pots and pans' for your kitchen, it is often a question of what to buy next. Perhaps you realize that the preparation of food is a lot more trouble than it should be. This may be solved by adding a new baking dish or individual dishes in order to prepare food in an attractive way. A little 'dressing up' will often make the simplest food delight to the eyes of your family or friends."

"Mrs. Horace Newsome had grey, representing the drabness in the lives of many who walk the streets of our Southland, and told of our rescue mission and good will centers. Mrs. Roy Cloud closing the program held for inspection a white page, as the purpose of evangelism, to remind us that the blood of Jesus can cleanse and wash white the sins of a careless world. Prayer for the continuance of the work, by Mrs. Will Bain, was followed by the closing song "Faith of Our Fathers."

A refreshment plate of iced cake, fruit punch and candies were served. Mrs. Johnnie Mills of Henderson was a very welcome out-of-town guest, and Mrs. Earl Seale was welcomed as a new member.

Birthday Party.

KERENS, July 13.—(Spl.)—At his home on Highway 31, East Kerens, the birthday of James Wright was celebrated with a lovely party for twenty-nine little boys and girls, on Friday, July 7th, from 5 to 6:30 p.m.

Assisted by his mother, Mrs. James Wright, and aunts, misses Bess, Pearl and Agnes Inmon, Jimmie entertained his guests with a well planned series of games, on the lawn, when the time came to cut the beautifully decorated birthday cake, with its seven small candles, and were invited into the dining room where the attractive red and white color scheme was carried out in cover and napkins for the table and in eating utensils, ribbons extending from the light fixtures to each place around the large table; clusters of red balloons and white all-day suckers were also featured in the plan.

Dixie cups of vanilla cream were served with the cake, and good wishes were made for many more such occasions. Jimmie was the happy recipient of many lovely and useful gifts.

HIGHWAY ENGINEER BELIEVES O'DANIEL WRONGLY IMPRESSED

ITEMIZATION OF VETOED JOBS GAVE IMPRESSION EX- PENSES HAD BEEN HIKE

AUSTIN, July 13.—(P)—Julian Montgomery, state highway engineer, said today in his opinion Governor W. Lee O'Daniel sincerely believed that although he vetoed 327 workmen from the department the highway commission had authority to retain the employees.

The engineer said the 327 work-

WELDER'S SPARK IS CAUSE OF EXPLOSION AIRCRAFT CARRIER

NORFOLK, Va., July 13.—(P)—Rear Admiral M. H. Simons, commandant of the Norfolk navy yard, said today an explosion and fire which damaged the exterior of the aircraft carrier Ranger amidships yesterday was caused by a welder's spark igniting "pocket" of gasoline.

The commandant's statement was made while a board of inquiry headed by Captain L. A. Davidson of the U. S. S. Omaha, convened aboard the 735 foot vessel to investigate the fire.

Two men overcame by gas, W.

Sullivan, aviation machinist mate of San Diego, Calif., and A. L.

Russell, seaman first class of Lexington, Ky., were taken on board

the first time in the appropriation bill for the new biennium, begin-

ning Sept. 1.

Formerly they were carried en

mass in the same way as several thousand laborers and other field workers. Both groups were em-

ployed through the department's

general authorization to conduct such

work as was necessary to ef-

fect that had been explained to the

governor at conferences, Montgomery said.

Montgomery's Opinion

"For such reasons it is my opinion on the governor simply wanted to place the itemized appropriations for the highway department on the same basis as in former appropriations, and in doing so, doing anything that would prevent the department from continuing the 327 necessary field employees itemized, and which he vetoed from the department's appropriation."

The governor was not available for comment. Secretaries of chief executive was en route to

the legislature to confer.

Mineral Wells to attend a state-

wide meeting for conference.

The engineer who had conferred at length with members of the highway commission issued a lengthy statement, leaving no doubt a majority of the items pruned from the bill by the governor.

The highway department is fin-

anced by a portion of the gasoline

taxes and automobile registration

measures, and a rider on the registration

measure may apply the highway fund to

"construction and maintenance" of a highway system.

HEALTH, BEAUTY AND POISE

HOW TO IMPROVE YOUR PERSONALITY
By VERONICA DENGEL

DIET AND REDUCING

J. S. C. writes that she is 60 years old, normal in height and weight, but that she has a large abdomen which she would like to get rid of—that she is interested in reducing her waistline.

Dear J. C., It is difficult for me to know whether by 'abdomen' you mean 'stomach' Veronica Dengel or the whole abdominal section. And of course a large waistline could be a general thickening in the whole area—hips included.

Frequently, an enlarged waistline is due to sluggish elimination, or bloat from gas which forms because the food is not properly digested. It might be well to look into your dietary habits—and be sure that you are not using too many of the sulphur foods cooked.

Sulphur foods are excellent for skin and hair, but the best taken raw. When this type of food is cooked, it is frequently a cause of gas and distress. Do you know what the Sulphur foods are? The best ones are Cabbages, Radishes, Onions, and Horseradish; then we have cauliflower, carrots, apples and turnips. Use these foods in salads rather than cooked all the time. And when you do cook cabbage and cauliflower and turnips, cook them lightly in practically no

water. Cut them fine—or shred them; turn over in melted butter for five or six minutes, and you will find them far more delicious, and more easily digested. If you have ever eaten cauliflower uncooked—you've missed something! Grate the fine flavor and mix with your green salad. It lends an unusual nutty flavor. Try it for an exciting change one of these hot nights that you plan a meal entirely away from the stove.

And shredded raw apple with finely chopped cabbage is most interesting change for salads. Carrot finely shredded, combined with chopped celery, is another appetizing salad.

But to get back to you, J. C., check on your eliminations; and if you feel this needs attention—visit your physician, and let him examine you generally, and he will recommend a good herbal laxative. Perhaps he will suggest using an enema several times a week to relieve the gas accumulation until your system has had a chance to adjust itself.

However, be sure that you really are getting a little exercise in the way of bending, twisting, stretching movements to keep your circulation from becoming sluggish; and be sure that you really are not eating too many of the weight building foods, and that you really are using lots of salads and fruits and vegetables.

MOANING, WEEPING AND WAILING OVER SLASHES IN FUNDS

O'DANIEL'S VETO OF APPROPRIATIONS CAUSES CONSIDERABLE CAUSTIC COMMENT

AUSTIN, July 12.—(P)—Representative Sam D. McReynolds, of Tennessee, died at 6:15 a.m. today.

McReynolds, 67, was chairman of the house foreign relations committee and stood high in democratic party circles.

Dr. George W. Calver, capital physician said McReynolds had been ill "off and on" all year and that the immediate cause of death was a heart attack.

The Chattanooga was a close friend of Secretary Cordell Hull and was active in promoting administration matters touching on all aspects of foreign affairs. His absence from the floor at this session was a factor, friends said, in preventing the administration so far from getting neutrality legislation in form it deserved.

McReynolds had been a member of congress since 1922. In 1933, he was an American delegate to the International Monetary and Economic Conference in London.

FEARED FOR LIFE.

There was a time early in the public career of Samuel David McReynolds when he was "afraid to go to bed at night for fear that someone, trying to get me, might bring down the whole house on my family."

That was while he was a criminal court judge at Chattanooga presiding at trials of persons charged with violating Tennessee's prohibition laws.

Years later, after he had gone to Washington as representative from the third Tennessee district, and attained prominence as chairman of the foreign affairs committee of the national house, a friend said of him that he "never had any fun." The friend hastened to add, however, that he "always has been happy, for the serious side of life appeals to him."

Judge McReynolds had a reputation for ruling his court with an iron hand and hundreds of men who broke the dry laws were sent to Tennessee prisons. During his 20 years on the bench the moonshiners and bootleggers came to fear and hate him.

In 1923 McReynolds took his seat in the national legislature. Two years later he was assigned to the important foreign affairs committee and became chairman of the national house, a friend said of him that he "never had any fun."

The friend hastened to add, however, that he "always has been happy, for the serious side of life appeals to him."

Years later, after he had gone to Washington as representative from the third Tennessee district, and attained prominence as chairman of the foreign affairs committee of the national house, a friend said of him that he "never had any fun."

The friend hastened to add, however, that he "always has been happy, for the serious side of life appeals to him."

Judge McReynolds had a reputation for ruling his court with an iron hand and hundreds of men who broke the dry laws were sent to Tennessee prisons. During his 20 years on the bench the moonshiners and bootleggers came to fear and hate him.

SAM D. M'REYNOLDS, CONGRESSMAN FROM TENNESSEE, DIES

CHAIRMAN OF HOUSE FOR- EIGN RELATIONS COMMIT- TEE; DEMO LEADER

WILL CONDUCT OUTDOOR REVIVAL MEETING CHATFIELD METHODISTS

REV. JOHN M. NEAL

The Reverend John M. Neal, general evangelist, is to preach in a big out-of-doors revival meeting at the Chatfield Methodist church which begins Wednesday evening, July 19th.

The Chatfield church considers itself quite fortunate in securing his services this year. For the first two evenings of the revival, Wednesday and Thursday, Dr. P. E. Riley, pastor of the First Methodist church, Corsicana, will preach the Rev. Mr. Neal will

start preaching on Friday evening.

The evangelist is a very popular and unique revival preacher, being very much in demand over the whole South. This summer he has preached in two big camp meetings in Louisiana and Mississippi as well as in many revivals throughout the rest of Texas. He comes to the Chatfield church from a revival in the Methodist church at Dawson.

Arrangements are being made to have some fine song services during the revival. It is hoped that many of the friends of the Chatfield church will come out and help with the singing.

The pastor of the church, M. Dick Lowry, extends to the many friends of the Chatfield church, a cordial invitation to attend the services and enjoy a spiritual reviving as well as a renewing of friendships.

CLOSE FRIEND OF HULL.

During his Washington years McReynolds was a close friend of Cordell Hull, senator from Tennessee and later secretary of state. They were together so often they became known as "the Tennessee twins."

Both were born on Tennessee farms and both came from the backgrounds seen in Congress. Both were quiet, reserved, studious.

Among his associates, McReynolds had a reputation for great courage and honesty. "He never stretched a ticket or violated the ethics of his church or profession," they said of him. He was a member of the Methodist Episcopal Church, South.

A youth McReynolds studied in the schools of his native county and then entered People's College at Prairie View, studying at Cumberland University, from which he received his B.A. He read law in the office of Senator J. B. Frazier.

In 1893, at the age of 21, he was admitted to the bar and two years later moved to Chattanooga. He was appointed to the criminal court bench in 1903 and later won three successive terms. Twenty years after going on the bench, he resigned to enter congress.

There were many unanswered questions as to how fingers ran down lists of eliminated expense items.

State police, for instance, wondered how Texas would return fugitives from other states. A \$14,000 item for this purpose in the governor's budget was eliminated by the Chief Executive.

Knots of employees gathered in corridors to talk things over.

A group of capitol watchmen, reporting earlier than any other workers, paced the capitol terrace for delivery of newspapers detailing the governor's action.

Convict Three In Biggest Cash Holdup

NEW YORK, July 13.—(P)—A Brooklyn jury, today convicted three men of first degree robbery in the nation's biggest cash holdup—the \$427,950 armored car robbery near the Rubel ice plant on Aug. 21, 1934.

Judge William F. O'Dwyer remanded the trio—Stewart Wallace, Joseph Kress and Thomas Quinn—to jail without setting a date for sentencing.

Chief prosecution witness was plumb line John W. (Arch) Stewart, serving 30 to 60 years in Dannemora prison for bank robbery. In exchange for a promise of immunity Stewart testified he and the three defendants were among a group of eight men who plotted for two months, "cracked" the armored car and escaped in boats.

Two of the other persons indicted in connection with the robbery are serving 77-year terms in Alcatraz for kidnaping, three are dead, one is a fugitive and two are awaiting trial as accessories.

Style Expert Here.

Miss Elizabeth Long, women's style expert of the McCall corporation, is visiting the K. Welson department stores Tuesday and Wednesday to advise and help women overcome clothing and sewing difficulties. She will also teach them planning and selecting a wardrobe which is attractive to the individual and at the same time in keeping with their budget.

MAIN SOVIET AND JAPANESE BATTLE IS BELIEVED OVER

MOST OF SOVIET FORCES RE- PORTED DRIVEN BACK WEST OF KHAKA RIVER

BY RUSSEL BRINES

WITH JAPANESE TROOPS
AT HAILAR, Manchukuo, July 12. (Delayed)—(P)—I rode in an army truck over rutty roads to

the front line, with about 30 wounded men, to the village of Manchukuo, cavalrymen, part of

Mongolian warfare front to

Hailar, about 100 miles to the north.

On the front itself, Japanese had driven most of the Soviet forces back west of the Khaka river and said they considered the main battle virtually over.

The soldiers I rode with said they had been hurt in fighting west of Harbinshan, a railroad head, and that about 30 were being wounded daily in their section of the front.

At dawn we had seen Soviet-Mongolian and Japanese-Manchukuoan field pieces blasting at each other near where the Khorosten river runs into the muddy Khaka on the Mongolian border.

The firing went on as we rode through field camps where sturdy

soldiers called a welcome. Calm under shelling, they awaited orders to enter a battle whose purpose no one seemed able to explain.

Through the day Soviet aircraft ranged eastward, bombing communication centers near Hailar. Tonight the artillery duel was still in progress, but Japanese officers consider that the 11-day-old battle of Nomohan is finished. They expect the shelling to last for several days and the fighting, which first flared on May 11, die down unless Soviet forces try to broaden the front.

Nomohan itself is a hill in the center of a shell-plowed plain at the confluence of the Khorosten and Khaka. It apparently is of little value because a vast area of similar grassy, gritty land to the east in Manchukuo is un-cultivated. Japanese talk of colonizing there.

Most of the plain on the east side of the Khaka now is held by Japanese. They say there is a possibility a few Mongolian cavalrymen remain north of the Nomohan.

To the south, however, I had seen for myself that Japanese were in control.

Skirmishing probably will continue, even with the main battle dying down. At any rate, the Japanese apparently were ready.

ACCUSED KILLER OF CLEVELAND WOMAN TO DENY SLAYING

CLEVELAND, July 13.—(P)—Fred P. Spukup, attorney for Frank Dolezal, indicated today the brawny bricklayer, accused of hacking up the body of Mrs. Florence Pollio in the third floor of Cleveland's 12th bizarre "torso murder," would deny the slaying when the grand jury meets this month.

Sheriff Martin L. O'Donnell, whose office swore out the warrant charging Dolezal with first-degree murder, has declared he holds two confessions signed by the suspect.

Spukup said Dolezal denied killing Mrs. Pollio or any of the other 11 headless dead.

"He denies the Pollio killing," Spukup said. "He denies he is the torso murderer. He says he was in a daze when he made the confession. I know a lot about how the confession was obtained, but I'm not prepared to say anything just yet."

Spukup said that at his request Dr. L. J. Sternick examined Dolezal and did not find any evidence of injuries on the suspect, but "he did find Dolezal is subnormal mentally."
